

OLD MAN EMU **SUSPENSION SELECTOR**

MITSUBISHI PAJERO/MONTERO NP 2003 - 2007

LWB | 3.2 DIESEL | NO BULL BAR / LIGHT OR ALLOY BULL BAR

The Mitsubishi Pajero is a medium sized passenger wagon with a good blend of off road capability and comfort for long distance touring. Featuring a monocoque construction, with an all independent suspension setup, our OME engineers focussed on increasing control and handling, particularly with extra loads on board, as well as providing modest increases in ride height.

Multiple front springs and shocks were developed to cater for differing vehicle setups and ride height increases of approximately 35mm were achieved without the need for costly modification, whilst extensive shock tuning was undertaken to optimise comfort, control and handling.

Working within the limitations of the factory independent suspension design, OME engineers have also developed a range of rear springs, providing approximately 40mm of increase in ride height whilst catering for a variety of load carrying requirements.

RECOMMENDED KITS

NO BULL BAR / LIGHT OR ALLOY BULL BAR - MEDIUM LOAD

Recommended for vehicles with no bull bar and carrying loads of 0kg to GVM. Optimum performance will be achieved with loads up to 200kg. Front lift: 35mm, rear lift: 40 mm.

Components in this kit:

- ▶ Coil Springs (Front) (2915 x 1 pair)
- ▶ Coil Springs (Rear) (2917 x 1 pair)
- ▶ Nitrocharger Sport Strut (90006 x 2)
- ▶ Nitrocharger Sport Shock (Rear) (60019 x 2)

Estimated Lift:

- ▶ Front: 35MM
- ▶ Rear: 40 MM

We encourage you to have a chat with a member of our sales team prior to ordering to ensure any suspension upgrades meet your specific requirements.

RECOMMENDED KITS

NO BULL BAR / LIGHT OR ALLOY BULL BAR - 200 KGS LOAD

Recommended for vehicles with no bull bar and carrying loads of 200kg to GVM. Optimum performance will be achieved with loads of 200kg to 300kg. Front lift: 35mm, rear lift: 40 mm.

Components in this kit:

- ▶ Coil Springs (Front) (2915 x 1 pair)
- ▶ Coil Springs (Rear) (2918 x 1 pair)
- ▶ Nitrocharger Sport Strut (90006 x 2)
- ▶ Nitrocharger Sport Shock (Rear) (60033 x 2)

Estimated Lift:

- ▶ Front: 35MM
- ▶ Rear: 40 MM

We encourage you to have a chat with a member of our sales team prior to ordering to ensure any suspension upgrades meet your specific requirements.

RECOMMENDED KITS

NO BULL BAR / LIGHT OR ALLOY BULL BAR - 300 KGS LOAD

Recommended for vehicles with no bull bar and carrying loads of 300kg to GVM. Optimum performance will be achieved with loads in excess of 300kg. Front lift: 35mm, rear lift: 40 mm.

Components in this kit:

- ▶ Coil Springs (Front) (2915 x 1 pair)
- ▶ Coil Springs (Rear) (2995 x 1 pair)
- ▶ Nitrocharger Sport Strut (90006 x 2)
- ▶ Nitrocharger Sport Shock (Rear) (60033 x 2)

Estimated Lift:

- ▶ Front: 35MM
- ▶ Rear: 40 MM

We encourage you to have a chat with a member of our sales team prior to ordering to ensure any suspension upgrades meet your specific requirements.
