

A Red Desert Swag is an essential item for anyone who loves the outdoors. It is a tent, bed and mattress all rolled into one. Simply unclip the straps, roll it out and you're ready to put your head down for the night.

Made of highly durable yet breathable canvas which is both water and mould proof, a Red Desert Swag will give you years of service! Inside, a Red Desert Swag has a comfortable, removable, high density foam mattress covered by a washable cotton sheet. Removable flaps also allow 'open air' sleeping whilst keeping the user completely protected from insects due to the heavy-duty mosquito proof mesh. Gone are the days spending precious time and energy blowing up mattresses and wrestling with tent fly covers in the wind!

What differentiates a Red Desert Swag from a traditional nylon Tent (apart from ease and simplicity) is that it remains cool in summer and warm in winter. Tents have less air circulation and retain heat in summer, whereas a Red Desert Swag can unzip and open up to maintain air flow. Tents retain the cool air in winter which results in condensation forming inside the tent; in a Red Desert Swag you have a thicker covering, and a smaller area to retain the heat. Also, the canvas is breathable so you won't experience condensation! Our Swags will provide you with a comfortable, warm bed whenever you are away from home.

While most people own and use swags for camping in the bush, fishing trips, hunting expeditions and surfing road trips, their comfort and ease of use mean they're fast becoming popular as an extra bed for unexpected house guests.

The best part: A Red Desert Swag rolls up into a compact, easy-to-store piece:

Specifications

Colour: Army green or sea blue.

Fabric: Heavy weight **14oz** Ripstop poly/cotton enriched canvas. PU coated for waterproofing, mould and UV resistance. Used for top sheet AND floor*.

*Unlike some other swag companies we refuse to use PVC for our bases as it traps in moisture making it less comfortable and also less durable.

Mattress: 50mm high density foam mattress

Poles: Heavy duty aluminium poles. (Not cheap fibreglass poles that easily splinter)

Mesh: Hi-density mosquito proof mesh allowing bite free nights under the stars.

Pegs: Galvanized steel pegs

Zip: Heavy-duty # 10 SBS zippers.

Ropes: Anti-aging ropes

Product List

"Nomad"

The Nomad is the simplest swag we have available. Extremely versatile, simply 'unclip and unroll' and it is ready to go. Perfect for those 'nomads' who are always on the move. A full length zipper along the side allows it to completely open up which turns the swag into an open bed. While perfectly suited to the outdoors it is also very useful as an extra bed for unexpected house guests. Going to a braai and want to enjoy yourself? Keep one in your boot and never worry about drunk driving again.

DIMENSIONS: 200x70x55cm (erected)
70x27cm (rolled up)
4.8kg

"Star-Gazer"

The Star-Gazer is a unique dome style swag which can be supported by 1,2 or 3 aluminium poles depending on your preference. The top canvas side can be completely rolled back to reveal a full length heavy duty, mosquito proof mesh perfect for sleeping outside and watching the stars. Alternatively the mesh can also roll completely down to create an open swag useful for indoor sleeping.

Another very versatile swag perfect for use inside or out.

DIMENSIONS: 210x90x85cm (Rolled out)
90x30cm (Rolled up)
8kg

"Double-gazer"

The Double-Gazer is a dome style double swag which allows enough space for two people and even some kit if need be. Like the Star-gazer the canvas can be removed from the top to leave a heavy duty mosquito proof mesh to enjoy the nice evenings. This model comes with a two pole option - one at the head and one at the foot to create the dome. Like all swags, it can be used without poles as a standard bedroll.

A great, cosy way to spend the nights with someone else....

DIMENSIONS: 215x140x85cm (Erected)
140x30cm (Rolled up)
11.5kg
